## The premiere of Citro-JeePee

### ONDERWERPEN IN DIT NUMMER:

---

1. De première
2. De webshop
3. Het assortiment
4. Citro-JeePee

The kick-off of this webshop is the result of months of preparation and dedication. The team behind Citro-JeePee has conducted extensive research into the needs and wishes of their target group, in order to put together a range that meets them. This means that classic Citroën enthusiasts can expect a wide range of products, all carefully selected for quality and functionality.

Customers should not only be seduced by beautiful chrome parts or upholstery, for example, but also have the feeling that Citro-JeePee shares their passion for French elegance.

With a user-friendly interface, extensive product information and inspiring products, our webshop can become an essential resource for anyone who appreciates the timeless beauty of French classics.

# The Citro-JeePee webshop

Setting up a webshop focused on French Citroën classics for interior and exterior is an adventurous undertaking and a wonderful challenge. Ranging from complete interiors, door panels, chrome parts, door handles, foam types, decorative moldings and sheet metal parts that consist of high-quality and/or durable materials with a classic appearance are currently desired by Citroën enthusiasts.

For vintage cars, where rust and wear are common problems, finding replacement sheet metal parts or restoring the original parts can be a challenging task.

Finding the right parts for the interior and exterior of a Citroën can be a challenging task, especially if you are looking for parts that are both high quality and do not cost the top price.

The launch of the Citro-JeePee webshop marks an exciting moment for lovers of quality products. This online store, specialized in offering high-quality items, promises to provide a unique shopping experience. With a strong emphasis on quality, Citro-JeePee strives to differentiate itself in the crowded marketplace of online shopping.

The launch of the webshop is just the beginning. Citro-JeePee is committed to continuously innovate and improve its offering.

Customer feedback plays a crucial role in this; it enables the team to further tailor the range to the changing needs and preferences of consumers.

With a customer-centric approach and an unwavering focus on quality, Citro-JeePee is poised to make a lasting impression in the online retail market.

Citro-JeePee hopes to create trust with Citroën enthusiasts

“

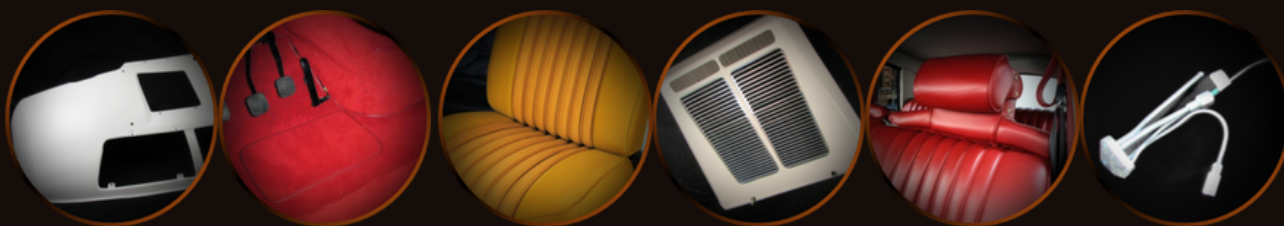

*By choosing high-quality parts, we can help preserve and maintain your loved one ID & DS, CX, HY, SM, GSA or AMI.*

# The Citro-JeePee range

Putting together a webshop focused on classic French Citroën vintage cars offers a unique opportunity to name an attractive range of the most iconic Citroëns that are loved by collectors and enthusiasts. Citro-JeePee focuses on Citroën models such as the ID&DS, CX, SM, HY, AMI and GS/GSA.

In addition to the vehicles themselves, it is important that Citro-JeePee offers a range of parts and accessories necessary for the maintenance, restoration, and personalization of these Citroën models. This can range from engine parts and body parts to interior trim and authentic accessories that emphasize the original condition and style of the vehicles. Working with specialist suppliers and restorers can ensure that the products are of high quality, and authentic to the original specifications.

*The interior parts are aimed at decorating the interior of the Citroën.*

*Materials such as real leather, high-quality artificial leather or durable fabrics with a classic look are popular. These materials not only provide comfort and durability, but also take into account the authenticity of the French classic.*

*Citro-JeePee supplies complete interiors, seat covers, headrests, carpets, headliners, door panels, insulation materials, foam rubber, dashboard parts and trunk linings.*

*Many additional accessories are available in the range for each of the above categories via our webshop.*

*The exterior parts that are available through our webshop are aimed at:*

*body parts, hinges and locks, lighting, hydraulic lines, engine parts, exhausts and stainless steel and chrome parts.*

*The body parts are available in metal and polyester. It is also possible to purchase original sheet metal parts (doors and fenders) of the Citroën ID&DS that are already ready through welding for further processing in restoration or repair work.*

*A specialty of Citro-JeePee concerns the extensive range of the Citroën DS Cabriolet, a large amount of upholstery and other parts are part of our range.*
